

**Sick of politics? Then...**

***GOD HELP US!***

(A new political comedy)

**GOD HELP US!** is a play ripped from today's headlines, an evening's entertainment that is at once hilarious and thought provoking.

Two pundits, Lawrence (a liberal lad) and Leslie (a conservative gal), find themselves confronted by GOD, a wise, sarcastic, cantankerous and wildly funny character who is disgusted by what America's political leaders have done to America. He has brought Randy and Leslie to Purgatory for a lively debate about the issues our time. And whomever he finds more persuasive will get God's "mighty thumb put on the scale" in one or the other's favor.

We learn that Randy and Leslie were a couple back in their college days, but politics tore them apart – in large measure because they couldn't learn how to disagree without being disagreeable. God interrogates them on a wide array of topics – domestic, international and personal – while commenting on the Bible, the Big Bang, the origin of mankind, and so much more.

God comments on what He's hearing – pointing out with tremendous humor the foibles and falsehoods of both sides. Finally, getting nowhere with his debaters, God has a brainstorm and switches things up (he can do that, he's GOD!): Randy suddenly begins to spout progressive ideas, and Leslie proclaims conservative ones. At first, the two don't realize what's happening, but the change reignites the flame between them. They kiss passionately, which inspires God's final speech and message:

*If these two clowns you've just observed can consider someone else's point of view, maybe there is hope for everyone. So all of you out there in the darkness, come into the light, because it's all up to you. I gave you free will, so go forth and get it together, for if you don't (we hear loud thunder)...*  
***IT'S THE END!!!***

Given the current election and the state of our politics – which is likely to continue well into the future – **GOD HELP US!** speaks to audiences of all political persuasions with one essential argument, that we have to listen to each other so that we can all live – *and laugh* – together.
